Welcome!

WE ARE EXCITED that you've chosen LaGuardia Community College. This is the place where you can dare to do more, push boundaries and write your own future.

Let's kick off the fun at **NEW STUDENT ORIENTATION,** which is an invaluable part of your first year experience at LaGuardia. Today, we want to celebrate your arrival and provide you with helpful information, resources and services to ease your transition to college.

Your **FIRST YEAR SEMINAR** (FYS) course will offer you a unique opportunity to work closely with a professor and a Student Success Mentor to strengthen the skills needed for success in college. You will be introduced to your major, learn about important College resources and events, and create an ePortfolio. Your FYS professor will also serve as your academic advisor throughout the semester, helping you further develop your academic and career plans.

MY CAMPUS EVENTS are a series of events designed around topics important to college students, which will support you along your path to graduation. By attending, you will find opportunities to join a student club or organization, map out your academic and career paths, explore transfer options, network with LaGuardia students, staff and faculty, and develop your financial literacy. Be sure to check your **My LaGuardia** page for information about these events and others.

At LaGuardia, we care about your success and we are working hard to make sure you have the best College experience.

Enjoy your time on campus, ask questions, ask for help, and make new connections, and congratulations on this chapter of your educational journey.

Welcome to LaGuardia!

Fay Maureen Butler, Ed.D.
Interim Associate Dean for
Student Success
